

Tube Fabrication Notes:

1. Material is mild steel tube, 1.25" outside diameter by .065" wall thickness or similar.
2. All bends are 90 degrees unless otherwise noted. All bend radii may be any dimension between 4 and 5 inches centerline radius.
3. All notching is for 1 1/4" tube diameter, unless otherwise noted.
4. Most dimensions are non-critical and a plus or minus tolerance of as much as .1" is acceptable. Critical dimensions requiring as tight a tolerance as reasonably possible (.03" ± or better) will be indicated with an asterisk (*).
